About Synergix Solutions

Synergix Solutions is a small independent UK business established in 1999 specialising in the provision of professional services for Small to Medium sized Enterprise (SME) businesses and organisations.

Providing technical services in quality systems management, business process Improvement and technical authoring solutions.

A background in U.K and overseas government organisations, agencies and commercial businesses.

Our services are transportable to a wide range of business sectors to meet the changing needs and challenges of today's business environment.

“What we are best at is supplying the services that meet your business needs”

Why Use a Technical Author

Why would you want to use a Technical Author, what do they offer?

- ❑ A technical education and background
- ❑ In-depth career experience within technical environments: -
 - Design, manufacturing, quality systems, commercial
 - Projects, service, customer support, training
- ❑ Good communication skills, especially in the written word
- ❑ The ability to translate technical jargon into user friendly documents
- ❑ Expertise in producing a wide variety of documentation
- ❑ Independent view, input and feedback
- ❑ Wide ranging experience in varied environments and industries
- ❑ Commercially aware
- ❑ Short term cost

All of the above are excellent reasons to consider using a Technical Author. A resource that can provide you with the very first “outsiders” independent view on your product, providing feedback and enhancement suggestions to improve your product prior to release to end users, your real customers.

Technical Documentation

Experienced in the processes and creation of technical publications from initial planning through to writing, reviewing, and release phases of: -

- ❑ Hardware Manuals
- ❑ Software Manuals
- ❑ User and Service Guides
- ❑ Operation and Maintenance Manuals
- ❑ Installation Guides
- ❑ Technical Specifications
- ❑ Illustrated Parts Lists
- ❑ Product Training Manuals
- ❑ Work Instructions
- ❑ Reference Materials.

Our technical writer areas of expertise includes; electronic, electro-mechanical and mechanical product areas.

Project Documentation

Projects can range from minor tasks with limited documentation to major projects with timescales of many years, where documentation forms part of the project deliverables and payments. At the extreme, a project may require many man years of documentation work during the project lifecycle. Our expertise includes the preparation of: -

- ❑ Project Management Plans
- ❑ Project Quality Plans
- ❑ Configuration Management Plans
- ❑ Supporting documentation

Project Quality Procedures

Although the objective is to apply existing company quality system procedures, it is commonly found that major projects require different processes with specific quality procedures and associated documentation. Synergix Solutions can assist in writing project specific procedures to maintain the necessary controls for your projects duration.

Business Systems Documentation

Quality Management Systems

We are experienced in all aspects of Quality Management Systems documentation.

From this knowledge base, we offer a range of authoring services: -

- ❑ Quality manuals
- ❑ Quality system procedures
- ❑ Quality system process flowcharts

In support of the requirements of ISO 9001:2008 for continual improvement of your quality system we offer full maintenance services of your documentation.

Web Services

We offer you web design and web authoring services.

In addition to our web design services we are also able to provide conversion of information such as leaflets, brochures, technical literature and other materials into web ready HTML format.

Training

We produce training documentation for products, personnel training including induction and refresher courses.

Our services include production of full training course and supporting materials for trainers and students.
